

General Insurance Terms for the Tyre Insurance

I. What is insured in my tyre insurance?

Insured is your new motor vehicle tyre (loose tyre/tyre mounted on rim) for cars (admissible total weight up to 5.9 t) bought by an authorized dealer approved by the manufacturer which is marked as an insured tyre (usually in the invoice). The newly bought tyre is therefore automatically equipped with the tyre insurance. Insurance cover exists insofar as you use the vehicle privately or commercially as intended by the manufacturer.

The coverage is not valid for tyres which are:

- a) used by cap companies;
- b) used on pure construction vehicles or rent a car- vehicles (e.g. Euromobil vehicles);
- c) used by NORA customers.

II. When does my tyre insurance provide insurance cover?

In case of a flat tyre which has occurred by driving on sharp objects or by an impact on a kerb stone edge and in case of vandalism. We will provide insurance cover in the cases described above insofar as the continuation of the journey is no longer permitted by law.

III. Which scope does my insurance have (insurance benefit)?

You will receive a credit on the invoice amount from us for the purchase of a new tyre (replacement tyre) according to the following table, which is generally based on the gross wholesale price of the replacement tyre. The insurance also covers the fitting costs (including tyre mounting, rubber valve, weights, balancing, changing of the wheel and disposal of the damaged tyre) incurring necessarily while changing the tyre. The fitting costs will always be reimbursed completely in accordance with costs for fitting usual in trade. Our credit will always only apply in connection with the purchase of a new tyre. A cash payment and the take-over of further incurred costs, besides fitting costs, are not possible. The replacement tyre has to have the same quality and quantity as the damaged tyre. If the gross wholesale price of the replacement tyre exceeds the gross wholesale price of the old tyre by more than 10 %, the basis for claims payments shall be limited to the former gross wholesale price of the old tyre plus 10%.

Thread depth of insured tyre within number of expired months from purchase of the damaged tyre	8mm-5.55mm within 12 months	5.5mm-3mm within 24 months
Credit amount (depending generally on the gross wholesale price of the replacement tyre, see above)	100%	75%

No insurance cover exists for:

1. Rims;
2. Labor costs, besides fitting costs as mentioned under Section 3
3. Losses, featured in your tyre as a result of normal wear and tear or accidents or by excessive wear and tear (e.g. burn-out);

5. Losses, for which a third party is liable to assume responsibility for payment or which are (have been) remedied within the framework of a granted guarantee or goodwill; this does not refer to damages caused by vandalism.
6. Losses, which you cause by driving on non-public or non-official roads, e.g. in case of off-road journeys;
7. Losses with a causal connection to the fact that
 - a) there were false chassis settings;
 - b) the tyre was not used with the air pressure stipulated in the operating instructions of the motor vehicle and/or that stipulated by the tyre manufacturer;
